

Linda Valenta, Principal Therapist and founder of SAIFF has worked with vulnerable children and youth for over three decades.

In 1994 Linda discovered what became her passion – preventing sexual abuse through intervention with children and young people who engage in harmful sexual behaviour.

Linda spent many years working with children who engage in harmful sexual behaviour in the criminal justice and residential settings and in 2007 she established SAIFF, a private, community based service that provides assessment and intervention to help children and their families to:

- (1) stop problematic and abusive sexual behaviour and create relationships & homes that are supportive, safe and abuse free,
- and
- (2) minimise the harm to children and families that results from abuse

Linda is a sought after trainer and speaker and she has been invited to present her work at conferences around the globe. SAIFF has provided training to professionals in the Child Protection, Youth Justice, Health, Education, Out of Home Care, & Disability Sectors across Australia.
